

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

<b>Product Name</b>	<b>NDC(s)</b>	<b>Lot/Batch</b>	<b>Exp</b>
Levofloxacin Tablets USP 500 mg	33342-022-08	BLF2214A	06/2025

Macleods Pharmaceuticals Limited is initiating a Retail level Recall of Levofloxacin Tablets USP 500 mg. This recall is being conducted with the knowledge of the United States Food and Drug Administration.

This recall is proposed due to mismatching of the embossing on the tablets (T7) with the embossing mentioned in the package insert (ML63) in the distributed bottles. The embossing mentioned in the package insert is “ML63” but the actual embossing on the tablets is “T7”. Hence, the subject batch is proposed to be voluntarily recalled from the market at a class II (Retail level).

The batch was distributed during the period of 14<sup>th</sup> October 2022 & 16 December 2022.
