

Baxter is issuing an Urgent Drug Recall for one lot of Norepinephrine Bitartrate in 5% Dextrose Injection, 8 mg / 250 mL (32 mcg / mL) listed below due to a customer report of an incorrect product concentration on the overwrap label. The overwrap label incorrectly identified the product strength as 4 mg / 250 mL; however, the primary bag label correctly identified the product strength as 8 mg / 250 mL. The affected product was distributed between 20-Oct-2023 and 29-Nov-2023 in the United States.
