

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

Strides Pharma Inc (Strides) is extending a recall of Methoxsalen Capsules USP, 10 mg 50 count bottles to the Retail Level for the lot listed below. This product was manufactured by Strides Pharma Science Limited, Bangalore, India.

This represents a revision from the Recall Notification letter which was originally sent on December 29, 2023. The initial notification described this recall to the Wholesale Level. This has been reassessed as a recall to the Retail Level.

This recall has been initiated at the Retail level due to an Out of Specification dissolution test result for a retain sample. Health Hazard Evaluation was performed. The evaluation indicated the potential patient safety risk and health hazard is negligible to none. Out of an abundance of caution, Strides has initiated the process for voluntary recall.

To date Strides is not aware of any adverse patient events resulting from the use of the subject product/ lot. Strides began shipping the subject product lot on June 30, 2023, to wholesalers and distributors in the United States of America.
