

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

PDI is recalling the following Prevantics drug products, within expiry, out of an abundance of caution and consistent with our goal of protecting public health, because there was uncertainty of the adequacy of the validation of the test methods used to manufacture the products before July 2021. The products being recalled were manufactured and shipped between February 2020 and July 2021.

Product name	SKU
Prevantics Swab	B10800
Prevantics Swab Bulk	B11400
Prevantics Swabstick	S40750
