

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required. This is in addition to the recall notice sent on Friday, April 28, 2023

Central Admixture Pharmacy Services, Inc. (CAPS) has initiated a recall of certain sterile compounded prescriptions containing hyperlyte within expiry. CAPS is initiating this recall based on a recall notice it received from one of its suppliers on April 28, 2023. CAPS' supplier initiated a recall of all products within expiration following an observation by the U.S. Food and Drug Administration (FDA) of an alleged lack of sterility assurance for products intended to be sterile. To date, CAPS' supplier has not received any reports of adverse events or patient injury related to the sterility of the drug products.

Central Admixture Pharmacy Services, Inc. (CAPS) has initiated a voluntary recall of certain sterile compounded prescriptions containing sodium phosphate and potassium acetate within expiry. CAPS is initiating this recall based on a recall notice it received from one of its suppliers on April 28, 2023. CAPS' supplier initiated a recall of all products within expiration following an observation by the U.S. Food and Drug Administration (FDA) of an alleged lack of sterility assurance for products intended to be sterile. To date, CAPS' supplier has not received any reports of adverse events or patient injury related to the sterility of the drug products.

CAPS' Phoenix Outsourcing Facility is initiating this sub-recall based on a recall notice from one of its suppliers (CAPS' Lehigh Valley Outsourcing Facility) dated April 28, 2023, below. CAPS' supplier initiated a recall of all products within expiration following an observation by the U.S. Food and Drug Administration (FDA) of an alleged lack of sterility assurance for products intended to be sterile. Administration of a drug product intended to be sterile that is not sterile could result in serious infections that may be life-threatening. To date, neither CAPS' Phoenix Outsourcing Facility nor CAPS' supplier has received any reports of adverse events or patient injury related to the sterility of the drug products.
