

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Sun Pharma is recalling the following lot of Testosterone Cypionate Injection, USP:

Product Name	Package Description	Lot Number	NDC Number	Expiration Date
Testosterone Cypionate Injection, USP, 200mg/ml	Carton containing single 1 ml Vial	HAC4337A	62756-015-40	11/2023

This recall has been initiated due to a manufacturing deviation which was reported due to a water leakage which occurred in the Grade B clean area prior to the vial filling operation. All quality parameters, including sterility, were within specifications and no microbial growth was found. However, out of an abundance of caution, Sun Pharma has decided to recall batch HAC4337A.

Sun Pharmaceutical Industries Inc. initiated shipment of this product on March 9, 2022.
