

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Lupin Pharmaceuticals Inc. is recalling lot **H002512** Expiry **March 2022** of **Gatifloxacin Ophthalmic Solution, 0.5%** to **retail** level. Out of an abundance of caution, this product lot is being recalled due to an out of specification result observed in a water loss test at the 9-month long term stability time point. Increased water loss value might affect the assay content, evaporation of water from this liquid preparation may alter drug concentration.

The recalled lot was distributed between December 22, 2020 and March 1, 2021 to wholesalers, distributors, and super markets (food) nationwide.

Gatifloxacin Ophthalmic Solution, 0.5% is supplied as:

Strength	NDC	Pack	Description
0.5%	68180-435-01	2.5mL	Gatifloxacin Ophthalmic Solution, 0.5% is yellow (pale yellow) sterile solution in a 5 mL white, low-density polyethylene (LDPE) bottle fitted with a white low-density polyethylene (LDPE) nozzle and sealed with a tan colored high-density polyethylene (HDPE) cap.
