

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

SCA Pharmaceuticals (SCA) is announcing a recall of 196 lots of syringe products received by the consignee on or before November 30th, 2020. This recall is due to the potential for a defective syringe cap, resulting in a non-integral unit. The defect is identified as a hole in the syringe cap which results in the syringe being non-integral and may cause the syringe to leak. The defect has been attributed to a problem with the moulding process at SCA's cap supplier. The affected lots are listed below.

This recall is being carried out at the hospital level with the knowledge of the Food and Drug Administration.

Product Description	NDC	Lot	Beyond Use Date	Quantity Shipped	Distributed Date Range
