

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Product Name and Size: 948 EPI-CAINE 0.025%-0.75% INJ (1ML) SDV

Lot number(s): 62881, 62923, 63066, 63067, 63103, 63120, 63219, 63226, 63263, 63380, 63381, 63433, 63455, 63537, 63580, 63721, 63792, 63888, 63930, 63959, 64079, 64109, 64239

Reason for Recall and potential hazards to patient:

The affected lot numbers were manufactured utilizing the following raw material that has been recalled by Spectrum Laboratory Products Inc. due to discoloration.

EP130, Epinephrine, USP

The darkened API may result in the compounded solution having a darker color. If such a darkened solution were to be used, there is the potential for decreased efficacy. The use of drug product with discoloration may impact the efficacy of the finished drug product, thereby leading to potential for decreased efficacy in users who are administered the drug product. No injuries or adverse events have been reported to Spectrum nor to Pine Pharmaceuticals to date.

The route of administration for the affected drug products is intraocular and is not intended for intravenous use.
