

Notice to Licensees Regarding CURES Version Update

Beginning August 1, 2024, all California dispensers of controlled substances will be required to report dispensations to the Controlled Substance Utilization Review and Evaluation System (CURES) using version 4.2B of the American Society of Automation in Pharmacy (ASAP) format. On and after this date, data submitted using the current CURES ASAP version 4.1 format will no longer be accepted.

Prompt action by licensees who dispense controlled substances is recommended. Technical implementation of this update to data submission software may take considerable time. Contact your data submission software provider and confirm they are preparing for this upcoming ASAP version change.

The Office of the Attorney General (OAG) has shared information about the ASAP format change and suggested action steps for data submitters. Please visit the [OAG's CURES Website](#) frequently for updates and informational bulletins.

For information about CURES, visit DCA's [CURES information page](#).
