

## Important Information for Licensees During Declared States of Emergency

During a declared state of emergency, the California State Board of Pharmacy reminds licensees of information and state laws intended to help pharmacists provide prescription drugs – including controlled substances – for residents displaced because of emergency evacuation.

Pursuant to California Business and Professions Code (BPC) [section 4062\(b\)](#), the Board permits pharmacies to provide care by waiving requirements that may be impossible to meet during an emergency – including requirements for prescription forms, record-keeping, labeling, and other standard pharmacy practices and duties. Pharmacists should document “**dispensed pursuant to BPC 4062(b)**” on the prescription form in case of audit by the Board or an insurance company.

In addition, BPC [section 4064](#) authorizes pharmacists to use professional judgment to refill a prescription for a dangerous drug or device without a prescriber’s authorization if failure to refill the prescription might interrupt ongoing care or have a significant adverse impact on the patient’s well-being.

The Board’s formal policy for filling prescriptions during an emergency is spelled out in “[Board Policy Statement: Disaster Response](#)” on the Board’s website. To read the statement, go to [www.pharmacy.ca.gov](http://www.pharmacy.ca.gov) > About Us > Board Information > Policy Statements > Disaster Response.
